DETAILED ACTION

Allowable Subject Matter

1. Claims 1-43 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 13, 25, and 26 the applicant's particular system and associated method comprising [wherein the updated component processes at least a portion of the unit of work concurrent to the non-updated component processing at least a portion of the unit of work]... in combination with the other limitations of the claims, was not disclosed by, would not have been obvious over, nor would have been fairly suggested by the prior art of record.

The dependent claims, being further limiting to the independent claims, definite and enabled by the Specification are also allowed.

The closest prior art, Krause (6047323) discloses [a method for updating components in a computing environment similar to that of the invention]. Krause does not disclose [wherein the updated component processes at least a portion of the unit of work concurrent to the non-updated component processing at least a portion of the unit of work]. Thus, the closest prior art fails to anticipate or render Applicant's limitations above obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
